

AGENDA

28th of August 2019

**BIOSECURITY COMMITTEE
MEETING**

NOTICE OF MEETING

Please be advised that meeting of the

Biosecurity Committee

Commencing at **2.00pm**

Will be held on

Wednesday, 28th of August 2019

At Shire of Upper Gascoyne Council Chambers

John McCleary
Chief Executive Officer

DISCLAIMER

The advice and information contained herein is given by and to the Council without liability or responsibility for its accuracy. Before placing any reliance on this advice or information, a written inquiry should be made to the Council giving entire reasons for seeking the advice or information and how it is proposed to be used.

Please note this agenda contains recommendations, which have not yet been adopted by Council.

BIOSECURITY COMMITTEE

SHIRE OF UPPER GASCOYNE
DISCLOSURE OF FINANCIAL INTEREST AND INTERESTS AFFECTING IMPARTIALITY

To: Chief Executive Officer

As required by section 5.65(1)(a) or 5.70 of the Local Government Act 1995 and Council's Code of Conduct, I hereby declare my interest in the following matter/s included on the Agenda paper for the Council meeting to be held on (Date)

*Extent of Interest

Item No.	Subject	Details of Interest	Type of Interest Impartial/Financial

(See below)

* Extent of Interest only has to be declared if the Councilor also requests to remain present at a meeting, preside, or participate in discussions of the decision making process (see item 6 below). Employees must disclose extent of interest if the Council or Committee requires them to.

Name (Please Print) Signature Date

NB. This notice must be given to the Chief Executive Officer prior to the meeting or at the meeting immediately before the matter in which you have declared an interest is discussed, Section 5.65(1) (a) & (b).

It remains Councilors'/Employees' responsibility to make further declarations to the Council if a matter arises during the course of a meeting and no previous declarations have been made.

It is a Councilor's/Employee's responsibility to ensure the interest is brought to the attention of the Council/Committee when the Agenda item arises and to ensure that it is recorded in the minutes.

It remains the Councilor's responsibility to ensure that he/she does not vote on a matter in which a declaration has been made. The responsibility also includes the recording of particulars in the minutes to ensure they are correct when such minutes are confirmed.

It is recommended that when previewing Agenda, Councilors mark Agendas with items on which an interest is to be declared and complete the declaration form at the same time.

Councilors may be allowed to remain at meetings at which they have declared an interest and may also be allowed to preside (if applicable) and participate in discussions and the decision making process upon the declared matter subject to strict compliance with the enabling provisions of the Act and appropriately recorded resolutions of the Council. Where Councilors request consideration of such Council approval the affected Councilor must vacate the Council Chambers in the first instance whilst the Council discusses and decides upon the Councilor's application.

Remember: The responsibility to declare an interest rests with individual Councilors / Employees. If in any doubt seek legal opinion or, to be absolutely sure, make a declaration.

Office Use Only: Date/Initials

Particulars of declaration given to meeting _____

Particulars recorded in the minutes: _____

Signed by Chief Executive Officer _____

1. OFFICIAL OPENING

The Shire President opened the Biosecurity Committee Meeting at ___:___ and welcomed those present.

RECORD OF ATTENDANCE

PRESENT:

Councilor Don Hammarquist, OAM, JP	Shire President
Councilor Jim Caunt	Deputy Shire President
Councilor Alys McKeough	
Councilor Greg Watters	
Councilor Hamish McTaggart	
Councilor Blanche Walker	

APOLOGIES/ABSENTEES:

Councilor Ross J Collins

STAFF:

Mr. John McCleary, Chief Executive Officer.
Mr. Ian Fitzgerald, Acting Chief Executive Officer.
Mr. Peter Hutchinson, Finance & Corporate Services Manager.
Mr. Jarrod Walker, Works and Services Manager.
Mr. David Higgs, Works Supervisor Emergency Services & Biosecurity Coordinator

GALLERY:

2. PUBLIC QUESTION TIME

2.1 Questions on notice

Nil

2.2 Questions without notice

Nil

3. CONFIRMATION OF MINUTES

MOVED:

SECONDED:

That the Minutes of the Biosecurity Committee held on 29th May 2018 are confirmed as a true and correct record of the meeting.

CARRIED: ___ / ___

4. DISCLOSURE OF INTEREST

Nil

5. BUSINESS ARISING FROM PREVIOUS MINUTES

DFES AV Gas – *Current AV Gas used by date are 30th June 2020 – In communications with DFES as to their process and possible donation.*

SUG & CRBA MOU - *Authority Amended / Signed by both Parties and up loaded to the Shires system.*

6. PRESENTATIONS

Nil

7. REPORT OF OFFICERS

7.1 Finance
As Per [Appendix 1](#).

7.2 Aerial Baiting

7.2.1 Basic Budget
As Per [Appendix 2](#).

7.2.2 Shire Map
As Per [Appendix 3](#).

7.3 LPMT's

7.3.1 Contracts

7.3.2 Servicing Stations

8. REPORTS OF COORDINATORS

Please refer to our Dogging Coordinators

9. GENERAL BUSINESS

9.1 Biosecurity Activity

9.1.1 Quarterly Biosecurity Newsletter

9.1.2 LPMT Activity and Areas

9.1.3 RCP Permit Update
As Per [Appendix 4](#).

9.2 CRBA Activity

9.2.1 Community Engagement Day on 8th May 2019

9.2.2 Baits supplied to SUG

9.2.3 MOU between CRBA and SUG

9.2.4 Wild Pig Program
Report
As Per [Appendix 5](#).

9.2.5 Training

9.2.6 Native Title Status
As Per [Appendix 6](#).

9.3 Registers

9.3.1 Bait Register
As Per [Appendix 7](#).

9.3.2 Poison & Asset Register
As Per [Appendix 8](#).

10. MATTERS BEHIND CLOSED DOORS

Nil

11. NEXT MEETING

To be advised

12. CLOSURE

The President declared the meeting closed at ____:____

APPENDIX 2

(Aerial Baiting Basic Budget)

Appendix 2.

053 ANIMAL CONTROL

Basic Aerial Baiting Budget 19/20

COA	DESCRIPTION	SUPPLIER	TOTAL inclusive
52012	Dogging Program - Other Expenses		
	AV Gas (\$510.00 / Drum x 6 Drums based on 18/19)	Refuel Australia	\$ 3,060.00
	Plane including Pilot (687.20 / Hour)	Norwest Air Works Pty Ltd	\$ 12,369.60
	<i>(Depending on days and if In conjunction with other Run)</i>		
	Bait Supply (\$6.00 / Kg x 6 Tonne)	Kb & Dm Kempton	\$ 39,600.00
	Transport and Assistance to Inject (\$500.00 / Person / Day)	Kb & Dm Kempton	\$ 9,900.00
	<i>(3 People for 6 Days in 18/19 Financial)</i>		
	Onion Bags (500 orange Bags based on 18/19)	Elders Ltd	\$ 280.00
	Injector Guns	Elders Ltd	\$ 310.00
	1080 (\$118.00 / Lt x 6 Based on 18/19)		\$ 708.00
	Safety (Suits / Gloves / Glasses)	M10	\$ 120.00
52014	Employee Costs		
	Coordinate Supply's and Works (Inc. overheads & Vehicle costs)		\$ 4,500.00
	<i>(Approx 5 Days based on 18/19)</i>		
TOTAL			\$ 70,847.60

Note:

May be split the Baiting of too 2 different racks 1 North and 1 South of SUG may involve more pastoralist involvement.

It maybe cheaper to utilise the Shires LPMT at \$427.50 / Day + GST to help with the injection process in conjunction with more Pastoralist involvement.

AV Gas Price is based on supply within the month of August, Subject to change each month.

Norwest Plane currently booked in for: 9th - 19th September
20th - 21st September

Pilbara
Meekatharra
Shire of Upper Gascoyne

Suit the flight run 22nd - 23rd September or as Required

Norwest Air Works can supply a Bombardier on casual day rate of additional \$200.00 / Day

Norwest air works only 18Hrs over 11/10/18 - 13/10/18 on the following 8 Stations out of 23:

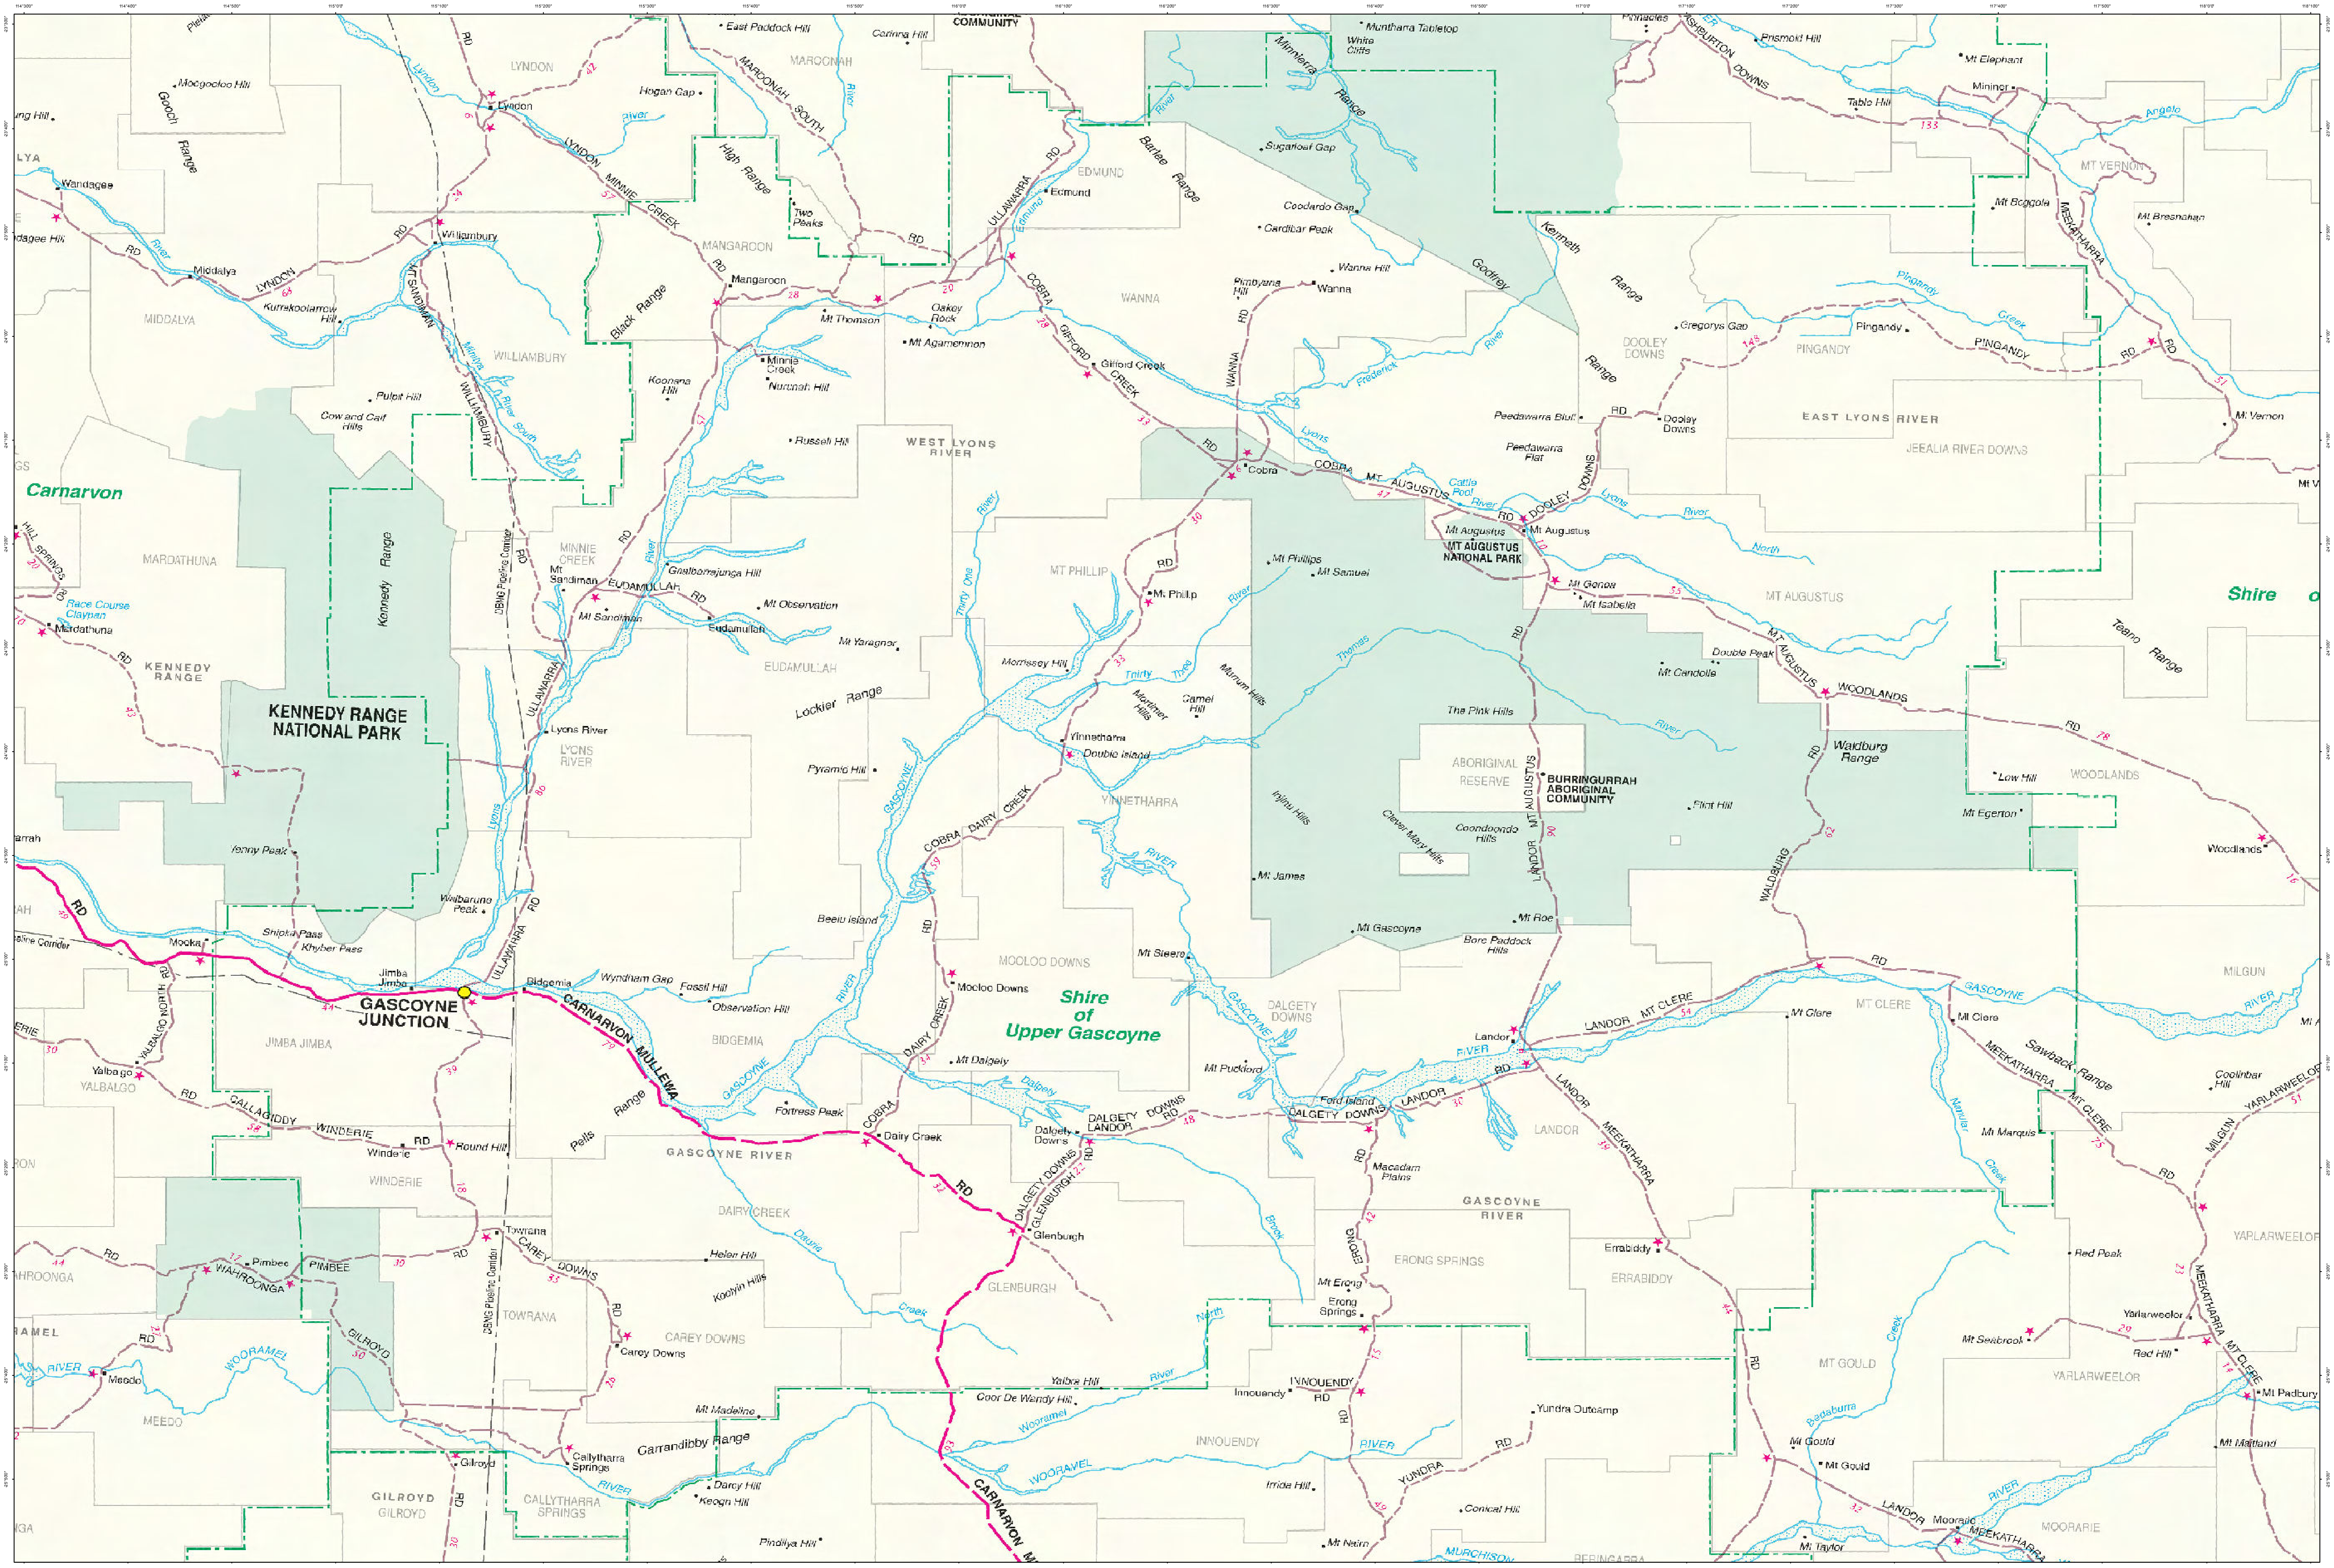

Yinnetharra, Dairy Creek, Landor, Carey Downs, Mt Augustus, Bidgemia, Lyons River, Mt Phillip

If there was less or more stations on the run then the plane costs would alter

Again would suggest if Coordinated all by 1 Person with as much notice as possible to All Pastoralists

Summary

WAFAM returned to Landor Station on 28 June 2019.

Scattered showers had occurred over the Gascoyne in the previous week but little fell in the area directly affected by this project.

There was open water in the creeks with pools being full and plenty of feed for the feral pigs. Thick stands of tee tree provide shelter for the pigs and the pigs of the Gascoyne behave differently to other areas of the state.

The pigs in this area tend to be very mobile and may only visit baited and monitored area intermittently. This may be because they have access to a wide range of food sources and travel in odd patterns. In areas in the south and north of the State pigs will gather in mobs and generally follow a regular routine which makes trapping a very viable option. This allows for large numbers of pigs to be eradicated quickly. Unfortunately the Gascoyne pigs operate differently!

The Gascoyne pigs do not follow a regular routine. Whether this is because they are disrupted by wild dogs or other contributing factors such as human intervention is difficult to assess. Therefore it has become obvious that while there is ample food and water spread over the landscape that baiting using 1080 is the current optimum method of removing feral pigs in the region.

An individual pig (identified by camera monitoring) may visit a baiting or trap site and then may not be seen at the same site for days or even a week. If baits have been laid in the interim (three day turnaround) that individual will be missed in the baiting cycle. This can be very frustrating as WAFAM operators have become very familiar with the pigs in the area and are working hard to ensure that every individual identified on camera is despatched by one method or another.

More boars than sows have been identified by camera monitoring. This may be because WAFAM are targeting sows – reduction in breeders equals quicker feral pig control by preventing the breeding cycle – no piglets on the ground ensures that the next generation of feral pigs is depleted.

WAFAM have positioned trap/baiting sites where it is expected that permanent water will be available during spring/summer. These permanent sites should attract pigs as the river pools dry up. It is expected that greater numbers of pigs will be attracted to the water during the spring and summer seasons and baiting/trapping will become easier.

As WAFAM operators have been checking traps and monitoring cameras any sign of pigs is assessed by placing of a camera. If there is sufficient activity at the site a pre - feed is placed to assess effectiveness as a trap/baiting station site.

A total of 14 pigs were confirmed deceased in this phase of the project. There were, of course, many others killed by baiting but as explained in the previous report it is not good use of time to search for bodies other than in a 200 metre radius of a baiting station.

The same process of laying baits for a total of three days and preventing access by any other animal has been used. After days three any uneaten bait is completely removed from the site.

This report identifies sites where pig activity is recorded, shows overall activity since program commencement and identifies sites where deceased pigs have been found. In the data sheets by waypoints deceased pigs are identified in red. These data sheets identify pigs seen on camera and any dogs or cats viewed. Traps at waypoints 18 and 121 experienced the most activity.

Video footage and still photographs together with an interactive map have been provided to the Carnarvon Rangelands Biosecurity Association. Some still photographs are included with this report to indicate the types of pigs which are being targeted.

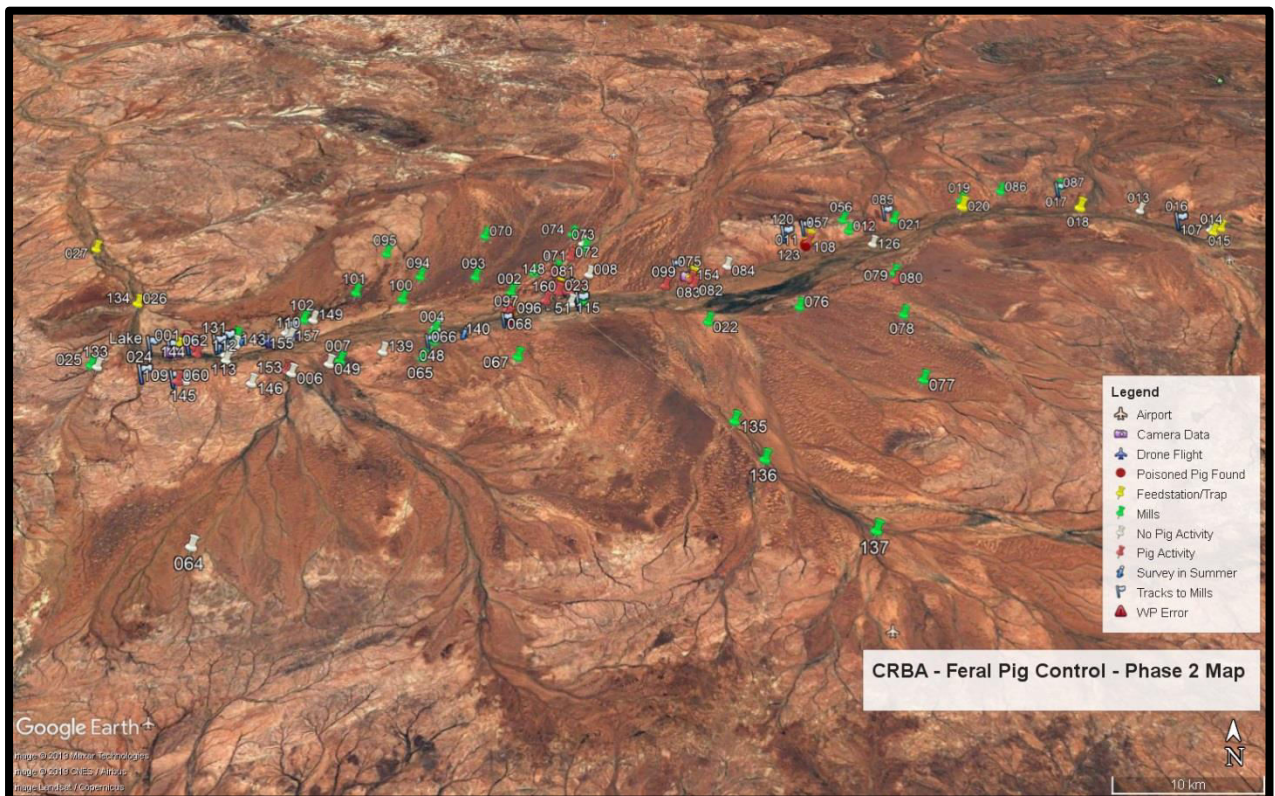

Sites Poisoned	Waypoints: 18, 96 (51), 75, 121
Pigs seen on camera	Boars: 33 Sows: 16
Pigs Removed	Boars: 6 Sows: 8
Approximate Fuel Used	750 Litres

WAFAM left Landor Station on 1st August.

WAFAM August 2019

12/7/19	18	Coulee Pool Trap site	WAFAM 3 + 9 + Solar	Serviced Cameras - 10 kg treated grain 1080 concentrate - Deactivated Feeder
12/7/19	121	Boundary Trap Site	Br15-#10 + Solar - SG8 + Solar	Serviced Cameras - 10 kg treated grain 1080 concentrate - Deactivated Feeder
13/7/19	18	Coulee Pool Trap site	WAFAM 3 + 9 + Solar	Serviced cameras - Found 2 x poisoned pregnant sows - Tissue samples (tongue) taken for Dr P Adams DPIRD

Date	WP	Description	Cameras	Notes
13/7/19	20	Teamarra Trap site	None	Removed DPIRD Auto feeder and camera WAFAM 5 to use at new site
13/7/19	121	Boundary Trap Site	BR15-#10 + Solar	Removed camera SG8 - Serviced remaining cameras - reactivated Auto feeder - Cleaned trap - unable to find poisoned pigs due to dense ground cover
14/7/19	51	Bubble Well	WAFAM 1	Serviced camera - No activity
14/7/19	60	Brockman	None	No Activity -Removed camera SG11 - Removed 5 x stock panels - No panels left onsite
14/7/19	151	Horse Paddock	Bushnell	Serviced camera
14/7/19	152	Horse Paddock - Trail	WAFAM 12	Serviced camera
14/7/19	153	Landor River (crossing)	None	No activity - Removed M9 + M8 cameras due to campers in the area with 3 dogs and 1 cat.
14/7/19	158	Boundary South Trap Site	WAFAM 8	Construct feedstation at new location - 7 x panels - Auto feeder from WP20 - Camera 8 installed - freefeed left
14/7/19		Back of Coombrico Mill	WAFAM 2	No activity - Moved camera WAFAM 2 to opposite side of river - Pig tracks and tree rubs - Camera left to monitor
15/7/19	75	Back of Coombrico Mill	M8	Moved feedstation to new waypoint location (total 7 x panels) - installed camera M8 - Left freefeed
15/7/19	11	Bills Trap Site	WAFAM 6	Serviced camera - freefeed left
15/7/19	18	Coulee Pool Trap site	WAFAM 3 + 9 + Solar	Serviced cameras - Crossed pool looking for poisoned pigs (none found) - Cleaned trap and reactivated auto feeder
15/7/19	151	Horse Paddock	Bushnell	Serviced camera
15/7/19	152	Horse Paddock - Trail	WAFAM 12	Serviced camera
16/7/19	51	Bubble Well	WAFAM 1	Serviced camera - freefeed left
16/7/19	121	Boundary Trap Site		Serviced cameras - Large black boar sighted - Pig activity
16/7/19	151	Horse Paddock	Bushnell	Serviced camera
16/7/19	152	Horse Paddock - Trail	WAFAM 12	Serviced camera
16/7/19	158	Boundary South Trap Site	WAFAM 8	Serviced camera - Auto feeder not working - replaced battery now working
17/7/19	1	Dalgety/Landor boundary river	SG9	Serviced camera

Date	WP	Description	Cameras	Notes
17/7/19	75	Coombrico	WAFAM 2 + M8	Serviced camera - freefeed left - 1 large BI boar and 2 other black pigs sighted running from mill.
17/7/19	11	Bills Trap Site	WAFAM 6	Serviced camera - freefeed left
17/7/19	26	Puckford Trap Site	WAFAM 4 + 11 + Solar	Serviced cameras - Filled auto feeder
17/7/19	51	Bubble Well	WAFAM 1	Serviced camera - 1 kg treated grain 5ml 1080 concentrate to target sow with no tail
17/7/19	60	Brockman	None	No activity - freefeed not touched
17/7/19	158	Boundary South Trap Site	WAFAM 8	Serviced camera - Reset auto feeder to 5 seconds once a day
18/7/19	75	Combrico	WAFAM 2 + 14 + M8	Serviced cameras - Installed WAFAM 14 on trap and moved M8 to Mill - Pig activity - Freefeed left
18/7/19	11	Bills Trap Site	WAFAM 6	Serviced cameras - No new activity
18/7/19	18	Coulee Pool Trap site	WAFAM 3 + 9 + Solar	Serviced cameras - No new activity
19/7/19	51	Bubble Well	WAFAM 1	Service camera - looked for poisoned sow - not found
19/7/19	121	Boundary Trap Site		Serviced cameras - Freefeed - Boar carcass found and tissue sample taken (tongue) for Dr P Adams DPIRD
19/7/19	151	Horse Paddock	Bushnell	Serviced camera
19/7/19	152	Horse Paddock - Trail	WAFAM 12	Serviced camera
27/7/19	1	Dalgety/Landor boundary river	None	Removed camera SG9 - No activity
27/7/19	26	Puckford Trap Site	None	Removed cameras BR11 + WAFAM 4 & solar - Filled and reset auto feeder to 6 seconds once a day - Tucked wires up under star picket to protect them as Corellas are pulling wires out of solar on feeder.
27/7/19	51	Bubble Well	WAFAM 1	Serviced Camera - Freefeed - Pig activity
27/7/19	151	Horse Paddock	None	Removed Bushnell camera - No activity - water pool almost dried up
27/7/19	152	Horse Paddock - Trail	WAFAM 12	Removed camera WAFAM 12 - No activity
27/7/19	158	Boundary South Trap Site	None	Removed camera WAFAM 8 - No activity except Dog
28/7/19	75	Coombrico	None	Removed cameras WAFAM2 + 14 + M8 - Freefeed lupins & grain left - some activity - 5 pregnant sows and 3 boars seen on camera

Date	WP	Description	Cameras	Notes
28/7/19	11	Bills Trap Site	None	Removed camera BR6 - Freefeed left - 1 white/Black Spots boar seen on camera
28/7/19	18	Coulee Pool Trap site	None	Removed cameras BR9 + BR3 + solar - Removed DPIRD gate from trap to use at WP51 - 1 large black boar seen on camera
28/7/19	51	Bubble Well	WAFAM 1	Serviced camera - installed DPIRD gate to trap and poison sow and collect tissue samples - lupins prefeed left
28/7/19	121	Boundary Trap Site	None	Removed cameras BR15 + #10 + solar - filled auto feeder and reset to 5 seconds, once a day - 1 small black boar or sow on camera
29/7/19	51	Bubble Well	WAFAM 1	Serviced camera - 1 kg treated grain 5ml 1080 concentrate to target sow with no tail
29/7/19	75	Coombrico	WAFAM 2 + 14	Installed cameras WAFAM 12 & 14 on trap - 10 kg treated grain 200ml 1080 concentrate
29/7/19	159	Pig wallow	None	Pig wallow, no fresh activity
29/7/19	160	Water Hole	None	Checked water hole, no water on surface but easily accessible by digging.
30/7/19	51	Bubble Well	None	Target sow alive in trap and shot onsite, sow does not appear effected by 1080 - No vomit present - Tissue samples taken: Liver, Kidney & Stomach frozen in bags tongue sample in tube of ethonol supplied
30/7/19	75	Coombrico Trap site	WAFAM 2 + 14	Serviced cameras - Only 2 sows visited trap site - found the 2 x poisoned pregnant sows nearby - Tissue samples (tongue) taken for Dr P Adams DPIRD - Poison bait left for another night hoping remaining 3 x preg sows and 2 x boars would return.
31/7/19	75	Coombrico Trap site	None	Target pigs did not return - Trap cleaned and cameras WAFAM 12 & 14 removed.

WP51 - 96 Bubble

A51	Black sow boney and pregnant
B51	Black sow boney - No tail
C51	Black Boar
D51	Black Boar - Split Ears
E51	White BS Boar
G	

Target sow still alive in the trap - Shot immediately - samples taken from Liver, kidney & Stomach and frozen in plastic bags also tongue sample taken and suspended in ethanol. All samples will be handed to Dr P Adams DPIRD on 6/8/19

WP96 Bubble

Position:	S25° 11.094' E116° 52.125'	WP 54 -96 Bubble (Trap/Feedstation) Station: Landor
Date	Cameras	Notes
28/06/19	WAFAM 1	Pig activity - Serviced camera - Prefeed
29/06/19	WAFAM 1	Pig activity - Serviced cameras & feeder - prefeed
30/06/19	WAFAM 1	Pig activity - Serviced camera - Prefeed
1/07/19	WAFAM 1	Pig activity - Serviced camera - Prefeed
5/7/19	WAFAM 1	Serviced camera - prefeed Lupins
6/7/19	WAFAM 1	Serviced Camera - 1kg 1080 bait left for 1 x sow (no tail)
7/7/19	WAFAM 1	Poison bait gone - Serviced Camera - Prefeed Lupins
9/7/19	WAFAM 1	Serviced Cameras - Lupins prefeed - Activity
10/7/19	WAFAM 1	Serviced Camera - prefeed untouched - No activity
11/7/19	WAFAM 1	Serviced camera - No activity
14/7/19	WAFAM 1	Serviced camera - No activity
16/7/19	WAFAM 1	Serviced camera - freefeed left
17/7/19	WAFAM 1	Serviced camera - 1 kg treated grain 5ml 1080 concentrate to target sow with no tail
19/7/19	WAFAM 1	Service camera - looked for poisoned sow - not found
27/7/19	WAFAM 1	Serviced Camera - Freefeed - Pig activity
28/7/19	WAFAM 1	Serviced camera - installed DPIRD gate to trap and poison sow and collect tissue samples - lupins prefeed left
29/7/19	WAFAM 1	Serviced camera - 1 kg treated grain 5ml 1080 concentrate to target sow with no tail
30/7/19	None	Target sow alive in trap and shot onsite, sow does not appear effected by 1080 - No vomit present - Tissue samples taken: Liver, Kidney & Stomach frozen in bags tongue sample in tube of ethonol supplied by Dr P Adams. Trap cleaned and camera WAFAM 1 removed.

Note – In first report this waypoint was listed as 51. Subsequently, the waypoint has been replaced with waypoint 64 to ensure correct location.

The target sow would have consumed two lots of 1080 bait. Samples have been taken to discover a reason that she did not appear to react to the poison.
