* Declaring an Interest

Local Government Act 1995 - Extract

5.65 - Members' interests in matters to be discussed at meetings to be disclosed.

- (1) A member who has an interest in any matter to be discussed at a council or committee meeting that will be attended by the member must disclose the nature of the interest: (Penalties apply).
- (2) It is a defense to a prosecution under this section if the member proves that he or she did not know:
 - (a) that he or she had an interest in the matter; or
 - (b) that the matter in which he or she had an interest would be discussed at the meeting.
- (3) This section does not apply to a person who is a member of a committee referred to in section 5.9(2)(f).

5.70 - Employees to disclose interests relating to advice or reports.

- (1) In this section: 'employee' includes a person who, under a contract for services with the local government, provides advice or a report on a matter.
- (2) An employee who has an interest in any matter in respect of which the employee is providing advice or a report directly to the council or a committee must disclose the nature of the interest when giving the advice or report.
- (3) An employee who discloses an interest under this section must, if required to do so by the council or committee, as the case may be, disclose the extent of the interest. (Penalties apply).

5.71 - Employees to disclose interests relating to delegated functions.

- If, under Division 4, an employee has been delegated a power or duty relating to a matter and the employee has an interest in the matter, the employee must not exercise the power or discharge the duty and:
- (a) in the case of the CEO, must disclose to the mayor or president the nature of the interest as soon as practicable after becoming aware that he or she has the interest in the matter; and
 - (b) in the case of any other employee, must disclose to the CEO the nature of the interest as soon as practicable after becoming aware that he or she has the interest in the matter. (Penalties apply).

'Local Government (Administration) Regulations 1996 – Extract

In this clause and in accordance with Regulation 34C of the Local Government (Administration) Regulations 1996:

"Interest" means an interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having the interest and includes an interest arising from kinship, friendship or membership of an association.

3. THE FIRST ORDER OF BUSINESS WILL BE THE SWEARING IN OF THE COUNCILLORS ELECTED ON SATURDAY 18th OF OCTOBER 2025.

John McCleary, JP will witness the swearing in ceremony.

How the Shire President is elected

- The council is to elect a councillor to fill the office.
- The election is to be conducted by the CEO in accordance with the procedure prescribed.
- Nominations for the office are to be given to the CEO in writing before the meeting or during the meeting before the close of nominations.
(a) Nominations close at the meeting at a time announced by the CEO, which is to be a sufficient time after the announcement by the CEO that nominations are about to close to allow for any nominations made to be dealt with.
- If a councillor is nominated by another councillor the CEO is not to accept the nomination unless the nominee has advised the CEO, orally or in writing, that he or she is willing to be nominated for the office.

- The councillors are to vote on the matter by secret ballot as if they were electors voting at an election.
- Subject to clause 5(1) of Schedule 2.3, the votes cast under subclause (5) are to be counted, and the successful candidate determined, in accordance with Schedule 4.1 (which deals with determining the result of an election) as if those votes were votes cast at an election
- As soon as is practicable after the result of the election is known, the CEO is to declare and give notice of the result in accordance with regulations, if any.

Votes may be cast a second time

- If when the votes cast under clause 4(5) are counted there is an equality of votes between 2 or more candidates who are the only candidates in, or remaining in the count, the count is to be discontinued, and the meeting is to be adjourned for **not more than 7 days**.
- Any nomination for the office may be withdrawn, and further nominations may be made, before or when the meeting resumes.
- When the meeting resumes the councillors are to vote again on the matter by secret ballot as if they were electors voting at an election
- The votes cast under subclause (3) are to be counted, and the successful candidate determined, in accordance with Schedule 4.1 as if those votes were votes cast at an election.

How the deputy president is elected

- The council is to elect a councillor (other than the president) to fill the office.
- The election is to be conducted in accordance with the procedure prescribed by the president, or if he or she is not present, by the CEO.
- Nominations for the office are to be given to the person conducting the election in writing before the meeting or during the meeting before the close of nominations.
- Nominations close at the meeting at a time announced by the person conducting the election, which is to be a sufficient time after the announcement by that person that nominations are about to close to allow for any nominations made to be dealt with.
- If a councillor is nominated by another councillor the person conducting the election is not to accept the nomination unless the nominee has advised the person conducting the election, orally or in writing, that he or she is willing to be nominated for the office.
- The council members are to vote on the matter by secret ballot as if they were electors voting at an election.
- Subject to clause 9(1) the votes cast under subclause (5) are to be counted, and the successful candidate determined, in accordance with Schedule 4.1 as if those votes were votes cast at an election.
- As soon as is practicable after the result of the election is known, the person conducting the election is to declare and give notice of the result in accordance with regulations, if any.

Votes may be cast a second time

- If, when the votes cast under clause 8(5) are counted, there is an equality of votes between 2 or more candidates who are the only candidates in, or remaining in, the count, the count is to be discontinued and, not more than 7 days later, a special meeting of the council is to be held.
- Any nomination for the office may be withdrawn, and further nominations may be made, before or when the special meeting is held.

- When the special meeting is held the council members are to vote again on the matter by secret ballot as if they were voting at an election.
- The votes cast under subclause (3) are to be counted, and the successful candidate determined, under Schedule 4.1 as if those votes were votes cast at an election.

CHRISTMAS SHUTDOWN PERIOD FOR 2025

Applicant:	Shire of Upper Gascoyne
Disclosure of Interest:	Nil
Author:	Cherie Walker – Senior Corporate Services Officer Administration Andrea Pears – Manager, Finance & Corporate Services
Date:	9 October 2025
Matters for Consideration:	To determine the Christmas Shutdown Period for 2025.
Background:	In previous years the Shire has observed a Christmas/New Year stand down period in which both the Shire office and the CRC are closed during this time. Typically, this would commence Friday lunchtime the day after the Community Christmas party, and then we would re-open the next working day after the New Year's day public holiday. This year we would like Council to consider changing the Christmas shutdown period dates for the Shire and CRC to close at 12:00pm (noon) on Friday 19th December 2025 and re-open on Monday the 5th January 2026 as per normal business hours. With regards to the provision of services during this time, staff have identified a few options such as providing local residents an additional wheelie bin whilst the rubbish collection service is deferred until staff return to work. We also intend to give our community ample notice of our closure times to ensure they can be well prepared in accessing services such as DoT, Centrelink, postal, library and utilities prior to the shutdown. This includes giving notice to our suppliers and other trade services to our community. The Shire and CRC closure dates and times will be advertised well in advance and extensively leading up to the Christmas/New Year period. Staff will circulate a public notice with the closure information via our website, social media pages, mail drop and in the Gassy Gossip.
Comments:	It must be noted that the dates proposed for the Shire and CRC shutdown is traditionally a very quiet period where there is little demand for administrative services – as a result of this, staff seize the opportunity to take leave during this time as there is no need to compete with other staff to get in first to have the Christmas break off. All staff have an equal opportunity to enjoy the festive holidays with their families. As per previous years, on-call arrangements will be put in place prior to the proposed Christmas/New Year closure to ensure emergencies can be responded to. CEO and Senior staff will be available on mobile phone and emergency contact details will also be distributed where required.

APPOINTMENT OF PRESIDING & DEPUTY PRESIDING MEMBER FOR THE AUDIT, RISK AND IMPROVEMENT COMMITTEE

Applicant:	Shire of Upper Gascoyne
Disclosure of Interest:	Nil
Author:	John McCleary – Chief Executive Officer
Date:	9 October 2025
Matters for Consideration:	The appoint a Presiding and Deputy Presiding Member for the Audit, Risk and Improvement Committee.
Background:	As part of the Local Government reforms to governance and committees, as detailed by the Department of Local Government fact sheet, Local Governments are required to appoint an <u>Independent</u> Presiding and Independent Deputy Presiding Member(s) for the Audit, Risk and Improvement Committee. The head of power for these changes are provided in the Local Government Amendment Bill 2024.
Comments:	To assist Local Governments, meet this statutory required WALGA have been to the market to seek expressions of interest from suitably qualified and experienced persons to included in a Pool from which Local Governments may select persons for appointment to their Local Governments Audit, Risk and Improvement Committee. Please see attachment for WALGA's Expression of Interest – Invitation, which details the selection criteria, roles and responsibilities of the role, remuneration and appointment. It is anticipated that we will have four meetings per annum and the Presiding / Deputy member will be required to attend at least two of these meetings onsite with the remaining two being able to be held via electronic means. WALGA have provided a list of 8 potential Presiding Members with their respective profiles detailing their experience and qualifications. The Ex Manager of Finance and Administration and myself have gone through each of these and we have come to the conclusion that Mr Sam Curulli would be our best fit as the Presiding Member. Sam is currently the Deputy CEO for the Shire of Coorow (Band 4), he holds a Bachelor of Commerce Business Law. Sam has previously worked at the City of Melville, City of Nedlands and the Shire of August Margaret River and the Shire Harvey. After discussing this with Sam he has agreed to take up the position as the Independent Presiding Member In addition to the Presiding member we also have to appoint an Independent Deputy Presiding Member. We have identified Leah Maree Horton as an ideal candidate to fill this position. Leah has agreed to take on the position as the Independent Presiding Member.
Statutory Environment:	Local Government Amendment Bill 2024
Policy Implications:	Nil

Financial Implications:	From a 2025/26 Budget perspective we do not have an allocation for this position; however, we can address this at the Budget review. The Shire is required to pay a meeting fee, travel, accommodation and meals. It is anticipated that it will cost in the order of \$7,000 per annum.

13.6 LOT 53 GROUPED DWELLING – DEVELOPMENT APPROVAL FOR A GROUPED HOUSING DEVELOPMENT ON LOT 53 HATCH STREET

Applicant:	Shire of Upper Gascoyne
Disclosure of Interest:	Nil
Author:	Sean Walker – Town Maintenance Supervisor
Date:	12th October 2025
Matters for Consideration:	Grant approval to vary from the R-code R12.5 density requirements of the Residential Design Code allowing a grouped dwelling on Lot 53 Hatch Street, Gascoyne Junction WA 6705. Please refer the following Appendices Appendix 4- Local Planning Scheme – pages 11 & 12 Appendix 5 - Email from DOWLING GIUDICI + ASSOCIATES Appendix 6 - Housing Design Layout
Background:	There has been a shortage identified in regard to residential land, and Shire Staff housing. With this shortage in mind, the Shire identified the potential for construction of a “Grouped Dwelling” on Lot 53 Hatch Street, Gascoyne Junction, WA, 6705. To ensure compliance, the Shire sought the advice of a Town Planning contractor regarding the capacity to build a Grouped Dwellings on Vacant Lot 53 on Hatch Street.

Comments:	As part of the (Appendix 4) Local Planning Scheme No. 1 (LPS 1), grouped dwellings are permitted within the Rural Townsite zone provided it complies with any relevant development standards and requirements of the LPS 1. There is the capacity to vary from the LPS, as advised below. (Appendix 5) Upon advice from Anthony Dowling, Principal Planner of DOWLING GIUDICI + ASSOCIATES – <i>So long as a proposal can demonstrate accord with relevant objectives (and the design principles) of the R-codes and LPS 1 and that sufficient area is available within the subject land to accommodate onsite effluent disposal systems designed and capable of accommodating the expected volume of effluent anticipated to be generated by the residential development, then a variation to or departure from minimum and average site area provisions can be favourably considered.</i> <i>Granting approval to a development seeking to vary or depart from an R-code or scheme provision does not automatically mean that a precedent will be established and that each and every subsequent proposal to vary an R-code or scheme provision ought to be granted. As such, each individual development proposal is required to be treated on its individual merit, within the parameters of the matters set out in clause 67 in Schedule 2 of the LPS Regs 2015 and on a case-by-case basis.</i> As demonstrated in the proposed Housing Layout and the effluent design (Appendix 6), there is sufficient land to accommodate both the housing and the required effluent system. In line with the advice from Principal Planner, Anthony Dowling, evidence is shown by the that the Shire may vary from the LPS. One of the major impediments is to ensure that there is sufficient land area to construct a onsite effluent disposal system that meets the requirements of the Health Department. The Shire's Environmental Health Officer has indicated that there is sufficient room to construct two 18 metre leach drains and associated septic tank.

16.1 APPLICATION TO WAIVE BACK RATE FOR HASTINGS

Applicant:	Shire of Upper Gascoyne
Disclosure of Interest:	Nil
Author:	John McCleary - Chief Executive Officer
Date:	10 October 2025
Matters for Consideration:	To determine if a rate waiver for the Hastings worker camp is to be granted or rejected. Please see Appendix 7 for the 'Request for Consideration' from Hastings.
Background:	As part of the normal rating processes the Shire issued Hastings Technologies with a rates notice detailing a back rate of \$225,000 for the workers camp for the 24/25 financial year. In the 24/25 period the Shire did not apply the rate due to uncertainties concerning Miscellaneous Mining Licenses as the Camp sits on a Miscellaneous License.

Comments:	It has taken a considerable period of time for the legal processes to determine if a Local Government can or cannot rate a Miscellaneous Mining Licence. The State Administrative Tribunal determined that it was not allowed, this was appealed at the Supreme Court where SAT's decision was overturned and found that a Local Government could levy a rate on a Miscellaneous Licence. In this case the Shire followed all due processes, inclusive of consultation with Hastings, to have the identified portion of land where the Camp was situated surveyed and converted from an Unimproved to a Gross Rental Value to reflect the development of this land. This process was authorised by the Department of Local Government and was advertised in the Government Gazette. During this time of uncertainty I had cause to discuss this issue with the Shire of Ashburton and was advised that the Miscellaneous License 'argument' is moot because the GRV is over the Mining Lease and not the Miscellaneous License. Given the Supreme Court Ruling and the advice from the Shire of Ashburton it is clear that the rate applied to Hastings Transient Workers Accommodation could and possibly should have been applied in the 24/25 financial year. Under the Local Government the Shire has the ability to amend the rate record for the 5 years preceding the current financial year. In this case we went back one financial year. It may also be true that if this application by Hastings is supported it sets a precedent and WYLOO may make application for the same reasons as stated for the 25/26 financial year and this would have an impact on the current budget as it has been included in the budget.
Statutory Environment:	Local Government Act 1995 section 6.339 (2) (b) (b) may amend the rate record for the 5 years preceding the current financial year.
Policy Implications:	
Financial Implications:	When we set the 25 / 26 Budget we did not include the rates derived from the back rate. Accordingly if the application to waive is supported there will be no change to the current budget, if we reject the application we will need to recognise the extra revenue in the Budget Review and this would then be used to further support our reserve accounts or be used to offset any applications for hardship that again we have not budgeted for.

Compilation Report

To the Council

Shire of Upper Gascoyne

Scope

We have compiled the accompanying special purpose financial statements.

The specific purpose for which the special purpose financial report has been prepared is to provide information relating to the financial performance and financial position of the Shire that satisfies the information needs of the Council and the *Local Government Act 1995* and associated regulations.

The responsibility of the Shire

The Shire is solely responsible for the information contained in the special purpose financial report and have determined that the accounting policies used are consistent and are appropriate to satisfy the requirements of the Council and the *Local Government Act 1995* and associated regulations.

Our responsibility

On the basis of information provided by the Shire, we have compiled the accompanying special purpose financial statements in accordance with the significant accounting policies adopted as set out in Note 1 to the financial statements and APES 315: Compilation of Financial Information.

Our procedures use accounting expertise to collect, classify and summarise the financial information, which the Management provided, into a financial report. Our procedures do not include any verification or validation procedures. No audit or review has been performed and accordingly no assurance is expressed.

To the extent permitted by law, we do not accept liability for any loss or damage which any person, other than the Shire of Upper Gascoyne, may suffer arising from negligence on our part.

This report was prepared for the benefit of the Council of the Shire of Upper Gascoyne and the purpose identified above. We do not accept responsibility to any other person for the content of the report.

SHIRE OF UPPER GASCOYNE
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 August 2025

1. SIGNIFICANT ACCOUNTING POLICIES

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 Regulation 34*.

The material variance adopted by the Shire of Upper Gascoyne for the 2025/26 year is \$25,000 or 10%, whichever is greater. Items considered to be of material variance are disclosed in Note 2.

The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation. The preparation also requires management to make judgements, estimates and assumptions which effect the application of policies and the reported amounts in the statements and notes. These estimated figures are based on historical experience or other factors believed to be reasonable under the circumstances. Therefore, the actual results may differ from these reported amounts.

Actual and Budget comparatives are presented in year to date format unless otherwise stated.

Preparation

Prepared by: Tim Cooper
Reviewed by: Travis Bate
Date prepared: 15 Oct 25

(a) Basis of Preparation

The following financial statements are special purpose financial statements that have been prepared in accordance with the Australian Accounting Standards, Authoritative Interpretations, the *Local Government Act 1995*, and regulations, within the context in which they relate to local governments and not-for-profit entities.

With the exception of the rate setting information, the following report has been prepared on an accrual basis with balances measured at historical cost unless subject to fair value adjustments. Items subject to fair value adjustments include certain non-current assets, financial assets, and financial liabilities. Items such as assets, liabilities, equity, income and expenses have been recognised in accordance with the definitions and recognition criteria set out in the Framework for the Preparation and Presentation of Financial Statements.

These financial statements comply with, and supersede, the Australian Accounting Standards with the *Local Government (Financial Management) Regulations 1996* where applicable. Further information is provided in Note 1(i).

The functional and presentation currency of the report is Australian dollars.

(b) The Local Government Reporting Entity

The Australian Accounting Standards define local government as a reporting entity which can be a single entity or a group comprising a parent and all its subsidiaries. All funds controlled by the Shire in order to provide its services have formed part of the following report. Transactions and balances related to these controlled funds, such as transfers to and from reserves, were eliminated during the preparation of the report.

Funds held in Trust, which are controlled but not owned by the Shire, do not form part of the financial statements. Further information on the Shire funds in Trust are provided in Note 5.

(c) Rounding of Amounts

The Shire is an entity to which the *Local Government (Financial Management) Regulations 1996* applies and, accordingly amounts in the financial report have been rounded to the dollar except for amounts shown as a rate in the dollar. Where total assets exceed \$10,000,000 in the prior audited annual financial report, the amounts may be rounded to the nearest \$1,000.

(d) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 August 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Superannuation

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(f) Cash and Cash Equivalents

Cash and cash equivalents normally include cash on hand, cash at bank, deposits on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

(g) Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs related to completion and its sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Shire's intentions to release for sale.

(i) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed on the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, rates receivables are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Fixed Assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Recognition of Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Gains and Losses on Disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

(k) Depreciation of Non-current Assets

The depreciable amount of fixed assets included in buildings but excluding freehold land, are depreciated on a straight-line basis. The assets residual values and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its Major depreciation periods used for each class of depreciable asset are:

Asset	Years
Buildings	3 to 50 years
Furniture and equipment	1 to 20 years
Plant and equipment	1 to 25 years
Other infrastructure	5 to 50 years
Sealed roads and streets	
formation	not depreciated
pavement	39 years
seal	20 years
Gravel Roads	
formation	not depreciated
pavement	28 years
Formed subgrade	not depreciated
Unformed subgrade	not depreciated
Killili Bridge	100 years
Footpaths - slab	40 years
Drainage	30 - 108 years

SHIRE OF UPPER GASCOYNE
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 August 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(m) Prepaid Rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(n) Employee Benefits

Short-term employee benefits

Provision is made for the Shire's obligation for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in the statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. Subsequent measurement is at amortised cost using the effective interest method. The annual government guarantee fee is expensed in the year incurred.

Borrowings are classified as current liabilities unless the Shire has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied. Fair values of borrowings are not materially different to their carrying amount, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Borrowings fair values are based on the

(p) Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is

(q) Contract Liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

(r) Current and Non-current Classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

Compilation Report

To the Council

Shire of Upper Gascoyne

Scope

We have compiled the accompanying special purpose financial statements.

The specific purpose for which the special purpose financial report has been prepared is to provide information relating to the financial performance and financial position of the Shire that satisfies the information needs of the Council and the *Local Government Act 1995* and associated regulations.

The responsibility of the Shire

The Shire is solely responsible for the information contained in the special purpose financial report and have determined that the accounting policies used are consistent and are appropriate to satisfy the requirements of the Council and the *Local Government Act 1995* and associated regulations.

Our responsibility

On the basis of information provided by the Shire, we have compiled the accompanying special purpose financial statements in accordance with the significant accounting policies adopted as set out in Note 1 to the financial statements and APES 315: Compilation of Financial Information.

Our procedures use accounting expertise to collect, classify and summarise the financial information, which the Management provided, into a financial report. Our procedures do not include any verification or validation procedures. No audit or review has been performed and accordingly no assurance is expressed.

To the extent permitted by law, we do not accept liability for any loss or damage which any person, other than the Shire of Upper Gascoyne, may suffer arising from negligence on our part.

This report was prepared for the benefit of the Council of the Shire of Upper Gascoyne and the purpose identified above. We do not accept responsibility to any other person for the content of the report.

SHIRE OF UPPER GASCOYNE
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 30 September 2025

1. SIGNIFICANT ACCOUNTING POLICIES

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 Regulation 34*.

The material variance adopted by the Shire of Upper Gascoyne for the 2025/26 year is \$25,000 or 10%, whichever is greater. Items considered to be of material variance are disclosed in Note 2.

The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation. The preparation also requires management to make judgements, estimates and assumptions which effect the application of policies and the reported amounts in the statements and notes. These estimated figures are based on historical experience or other factors believed to be reasonable under the circumstances. Therefore, the actual results may differ from these reported amounts.

Actual and Budget comparatives are presented in year to date format unless otherwise stated.

Preparation

Prepared by: Tim Cooper
Reviewed by: Travis Bate
Date prepared: 16 Oct 25

(a) Basis of Preparation

The following financial statements are special purpose financial statements that have been prepared in accordance with the Australian Accounting Standards, Authoritative Interpretations, the *Local Government Act 1995*, and regulations, within the context in which they relate to local governments and not-for-profit entities.

With the exception of the rate setting information, the following report has been prepared on an accrual basis with balances measured at historical cost unless subject to fair value adjustments. Items subject to fair value adjustments include certain non-current assets, financial assets, and financial liabilities. Items such as assets, liabilities, equity, income and expenses have been recognised in accordance with the definitions and recognition criteria set out in the Framework for the Preparation and Presentation of Financial Statements.

These financial statements comply with, and supersede, the Australian Accounting Standards with the *Local Government (Financial Management) Regulations 1996* where applicable. Further information is provided in Note 1(i).

The functional and presentation currency of the report is Australian dollars.

(b) The Local Government Reporting Entity

The Australian Accounting Standards define local government as a reporting entity which can be a single entity or a group comprising a parent and all its subsidiaries. All funds controlled by the Shire in order to provide its services have formed part of the following report. Transactions and balances related to these controlled funds, such as transfers to and from reserves, were eliminated during the preparation of the report.

Funds held in Trust, which are controlled but not owned by the Shire, do not form part of the financial statements. Further information on the Shire funds in Trust are provided in Note 5.

(c) Rounding of Amounts

The Shire is an entity to which the *Local Government (Financial Management) Regulations 1996* applies and, accordingly amounts in the financial report have been rounded to the dollar except for amounts shown as a rate in the dollar. Where total assets exceed \$10,000,000 in the prior audited annual financial report, the amounts may be rounded to the nearest \$1,000.

(d) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

SHIRE OF UPPER GASCOYNE
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 30 September 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Superannuation

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(f) Cash and Cash Equivalents

Cash and cash equivalents normally include cash on hand, cash at bank, deposits on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

(g) Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs related to completion and its sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Shire's intentions to release for sale.

(i) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed on the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, rates receivables are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 30 September 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Fixed Assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Recognition of Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Gains and Losses on Disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

(k) Depreciation of Non-current Assets

The depreciable amount of fixed assets included in buildings but excluding freehold land, are depreciated on a straight-line basis. The assets residual values and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its major depreciation periods used for each class of depreciable asset are:

Asset	Years
Buildings	3 to 50 years
Furniture and equipment	1 to 20 years
Plant and equipment	1 to 25 years
Other infrastructure	5 to 50 years
Sealed roads and streets	
formation	not depreciated
pavement	39 years
seal	20 years
Gravel Roads	
formation	not depreciated
pavement	28 years
Formed subgrade	not depreciated
Unformed subgrade	not depreciated
Killili Bridge	100 years
Footpaths - slab	40 years
Drainage	30 - 108 years

SHIRE OF UPPER GASCOYNE
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 30 September 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(m) Prepaid Rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(n) Employee Benefits

Short-term employee benefits

Provision is made for the Shire's obligation for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in the statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. Subsequent measurement is at amortised cost using the effective interest method. The annual government guarantee fee is expensed in the year incurred.

Borrowings are classified as current liabilities unless the Shire has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied. Fair values of borrowings are not materially different to their carrying amount, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Borrowings fair values are based on the

(p) Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is

(q) Contract Liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

(r) Current and Non-current Classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

17. Interpreting zoning table

- (1) The permissibility of uses of land in the various zones in the Scheme area is determined by cross-reference between the list of use classes on the left hand side of the zoning table and the list of zones at the top of the zoning table.
 - (2) The symbols used in the zoning table have the following meanings –
 - P means that the use is permitted if it complies with any relevant development standards and requirements of this Scheme;
 - I means that the use is permitted if it is consequent on, or naturally attaching, appertaining or relating to the predominant use of the land and it complies with any relevant development standards and requirements of this Scheme;
 - D means that the use is not permitted unless the local government has exercised its discretion by granting development approval;
 - A means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving notice in accordance with clause 64 of the deemed provisions;
 - X means that the use is not permitted by this Scheme.
- Note: 1. The development approval of the local government may be required to carry out works on land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the carrying out of works on, and the use of, land. For development on land that does not require development approval see clause 61 of the deemed provisions.
2. In considering an application for development approval, the local government will have regard to clause 67 of the deemed provisions.
- (3) A specific use class referred to in the zoning table is excluded from any other use class described in more general terms.
 - (4) The local government may, in respect of a use that is not specifically referred to in the zoning table and that cannot reasonably be determined as falling within a use class referred to in the zoning table –
 - (a) determine that the use is consistent with the objectives of a particular zone and is therefore a use that may be permitted in the zone subject to conditions imposed by the local government; or
 - (b) determine that the use may be consistent with the objectives of a particular zone and give notice under clause 64 of the deemed provisions before considering an application for development approval for the use of the land; or

Hi John,

Yes you can, but it will take considerable length of time. Moves are now afoot by the WAPC to undertake scheme reviews (which are usually quite comprehensive) every 10 years as opposed to currently, every 5 years. I think you would want to avoid this process if possible. Changes to LPS 1 can be done via the amendment process.

As Liz Bushby advises below, you have a number of other options to pursue.

Option 2 – amending LPS 1 – is an appropriate course of action. However, rather than seek to recode singular allotments the WAPC would prefer a **more holistic approach** be undertaken. In other words, any proposed recoding ('**upcoding**') ought to **apply to the whole of the street block** in which the subject lot is located. The WAPC does not generally support 'spot rezonings or recodings limited to singular lots.

In respect to option 3, I have a differing view to Liz that varying the R12.5 requirements will undermine the application of the density controls applying to residential development on land zoned Rural Townsite.

So long as a proposal can demonstrate accord with relevant objectives (and the **design principles**) of the R-codes and LPS 1, and that sufficient area is available within the subject land to accommodate onsite effluent disposal systems designed and capable of accommodating the expected volume of effluent anticipated to be generated by the residential development, then a **variation to or departure from** minimum and average site area provisions can (and ought to be) **favourably considered**. Such a proposal will only require the lodgement and determination of a **development application** (in respect to the local planning framework).

Granting approval to a development seeking to vary or depart from an R-code or scheme provision **does not automatically mean that a precedent will be established** and that each and every subsequent proposal to vary an R-code or scheme provision ought to be granted. As you will know, each individual development proposal is required to be treated on its **individual merit** (within the parameters of the matters set out in clause 67 in Schedule 2 of the LPS Regs 2015) and on a case-by-case basis.

I venture to say that if approving a non-complying proposal leads to more similar proposals within the Gascoyne Junction townsite (and generally the local community and affected owners and occupiers of land have no objection to these) then there may be an appetite within the community – or at least an acceptance – that changes to the current residential density applying to the Rural Townsite zones (ie. an upcoding) ought to be favourably considered or is perhaps warranted, especially if will result in an increase in the availability of housing stock and choice and any associated local economic benefits etc.

It should be noted too that in respect to **public consultation** (referencing clause 2.3 in Part A of the R-codes and **clause 33(5)** in LP 1), it is **not a mandatory requirement** to consult the local community and/or adjoining and surrounding owners and occupiers of land on such proposal. A copy of clause 33 extracted from LPS 1 is attached for your assistance. Please further note that if the Shire decides that consultation with affected owners and occupiers of land and the general community is warranted or deemed desirable, any submissions made on such proposals are to be limited to town planning grounds only and extraneous matters cannot be considered.

I trust this advice and my opinion is of assistance.

Happy to discuss further or provide any clarification.

Kind regards

Tony

APPENDIX 7

(Application to waive back rate for Hastings Technologies)

10 October 2025

John McCleary
Chief Executive Officer
Shire of Upper Gascoyne
4 Scott Street
Gascoyne Junction WA 6705

Dear Mr McCleary,

Re: Request for Consideration – Back Rates for 2024/2025 (Assessment No: A6539)

We are writing in response to the recent rate notice issued to Yangibana Pty Ltd, which includes a charge of \$225,000 in back rates for the 2024/2025 financial year under the GRV – Transient Workers Accommodation category.

We respectfully request that the Shire reconsider the inclusion of these back rates for the following reasons:

1. **Non-Mining Use of Accommodation:** Over the past two years, the workers' accommodation at the referenced property has not been used for active mining operations. Instead, it has been maintained in a minimal capacity, with no active mining-related occupancy.
2. **Minimal Occupancy:** During this period, the accommodation has housed a maximum of six individuals at any one time, significantly below the capacity typically associated with transient worker facilities.

We value our strong ongoing relationship with the Shire and are committed to working collaboratively with the Shire of Upper Gascoyne. As we move forward, we are focused on developing the Yangibana Joint Venture Project in partnership with Wyloo, which we believe will bring substantial economic and employment benefits to the Upper Gascoyne region and the wider Gascoyne Region.

We would greatly appreciate your consideration of this request and welcome the opportunity to discuss this matter further.

Kind regards,

Vince Catania
CEO Hastings
