		-	-	-
Total Comprehensive Income		5,440,585	947,248	5,789,562

Notes:

All fair value adjustments relating to remeasurement of financial assets at fair value through profit or loss (if any) and changes on revaluation of non-current assets in accordance with the mandating of fair value measurement through Other Comprehensive Income, is impacted upon by external forces and is not able to be reliably estimated at the time of budget adoption.

Fair value adjustments relating to the remeasurement of financial assets at fair value through profit or loss will be assessed at the time they occur with compensating budget amendments made as necessary.

It is anticipated, in all instances, any changes upon revaluation of non-current assets will relate to non-cash transactions and as such, have no impact on this budget document.

This statement needs to be read in conjunction with the accompanying Financial Statements and Notes.

SHIRE OF UPPER GASCOYNE STATEMENT OF COMPREHENSIVE INCOME FOR THE YEAR ENDING 30 JUNE 2022 BY PROGRAM

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

2021 Actual figures are as at 12 August 2021 and remain subject to audit.

The budget has been prepared in accordance with Australian Accounting Standards, Authoritative Interpretations, the *Local Government Act 1995*, and regulations, within the context in which they relate to local governments and not-for-profit entities.

These financial statements comply with, and supersede, the Australian Accounting Standards with the *Local Government (Financial Management) Regulations 1996* where applicable.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

(b) Change in Accounting Policies

On 1 July 2021 no new accounting policies are to be adopted and no new policies are expected to impact the annual budget.

(c) The Local Government Reporting Entity

The Australian Accounting Standards define local government as a reporting entity which can be a single entity or a group comprising a parent and all its subsidiaries. All funds controlled by the Shire in order to provide its services have formed part of the following report. Transactions and balances related to these controlled funds, such as transfers to and from reserves, were eliminated during the preparation of the report.

Funds held in Trust, which are controlled but not owned by the Shire, do not form part of the financial statements. Further information on the Shire funds in Trust are provided in Note 13.

(d) Rounding of Amounts

All figures shown in this statement are rounded to the nearest dollar.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST where applicable.

Cash flows in the statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(f) Critical Accounting Estimates

The preparation of a budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets, liabilities, income and expenses.

(g) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(h) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

(i) Current and Non-current Classification

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if it is not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

(j) Superannuation

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(k) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk or changes in value and bank overdrafts.

(I) Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(m) Contract Assets

A contact asset is the right to consideration in exchange for goods or services the Shire has transferred to a customer when that right is conditional upon something other than the passage of time.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

(o) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs related to completion and its sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Fixed Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A(5)*. These assets are expensed immediately.

Where multiple low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Gains and Losses on Disposal

Gains and loses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period in which they arise.

Depreciation of Non-current Assets

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straightline basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Asset	Years
Buildings	20 to 50 years
Furniture and equipment	1 to 20 years
Plant and equipment	1 to 25 years
Other infrastructure	5 to 50 years
Sealed roads and streets	
formation	not depreciated
pavement	39 years
seal	20 years
Unsealed pavement	15 years
Formed subgrade	not depreciated
Unformed subgrade	not depreciated
Gravel Roads	
formation	not depreciated
pavement	28 years
Footpaths - slab	40 years
Drainage	30 - 108 years
Bridges	100 years

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Interest in Joint Arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Shire's interest in the assets liabilities revenue and expenses of joint operations are include in the respective lines items of the financial statements.

(r) Trade and Other Payables

Trade and other payables are unpaid current liabilities owed for goods and services provided to the Council prior to the end of the financial year and arise when the Shire becomes obliged to make future payments in respect of these goods and services. The amounts are unsecured and are normally paid within 30 days of recognition.

(s) Prepaid Rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(t) Employee Benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Shire's obligations for employee's annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

(u) Contract Liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

(v) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

(w) Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(x) Nature or Type Classifications

Rates

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears and service charges and sewerage rates.

Operating Grants, Subsidies and Contributions

Refer to all amounts received as grants, subsidies and contributions that are not non-operating grants.

Non-operating Grants, Subsidies and Contributions

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

Profit on Asset Disposal

Profit on the disposal of assets including gains on the disposal of long term investments. Losses are disclosed under the expenditure classifications.

Fees and Charges

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

Service Charges

Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995*. Regulation 54 of the *Local Government (Financial Management) Regulations 1996* identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

Interest Earnings

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

Other Revenue / Income

Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates etc.

Employee Costs

All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

Materials and Contracts

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc.

Utilities (Gas, Electricity, Water, etc.)

Expenditures made to the respective agencies for the provision of power, gas, water and communication expenses. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

Insurance

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

Loss on Asset Disposal

Loss on the disposal of fixed assets.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(x) Nature or Type Classifications (Continued)

Depreciation on Non-current Assets

Depreciation expense raised on all classes of assets.

Interest Expenses

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

Other Expenditure

Statutory fees, taxes, provision for bad debts, member's fees or State taxes. Donations and subsidies made to community groups.

(y) Program Classifications (Function / Activity)

Council operations as disclosed in these financial statements encompass the following service orientated activities/programs.

GOVERNANCE

Includes the activities of members of council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting elected members and ratepayers on matters which do not concern specific council services.

GENERAL PURPOSE FUNDING

Rates, general purpose government grants and interest revenue.

LAW, ORDER AND PUBLIC SAFETY

Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.

HEALTH

Control of the quality of food and water. Environmental Health Officer twice per year.

EDUCATION AND WELFARE

Provide a range of appropriate services via the Community Resource Centre.

HOUSING

Provide housing for staff.

COMMUNITY AMENITIES

Rubbish collection services, operation of rubbish disposal sites, litter control, protection of the environment and administration of town planning schemes, cemetery and public conveniences.

RECREATION AND CULTURE

Maintenance of public use buildings and areas including various sporting facilities. Provision and maintenance of parks, gardens, and playgrounds. Operation of library, museum and other cultural facilities.

TRANSPORT

Construction and maintenance of roads, streets, footpaths, depots, cycle ways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.

ECONOMIC SERVICES

Tourism and area promotion. Building Control.

OTHER PROPERTY AND SERVICES

Private works operation, plant repair and operation costs and engineering operation costs.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category Rates	Nature of goods and services General Rates	When obligations satisfied Over time	Payment terms Payment dates adopted by Council during the year	Returns / Refunds / Warranties None	Determination of transaction price Adopted by council annually	Allocating transaction price When taxable event occurs	Measuring obligations for returns Not applicable	Revenue recognition When rates notice is issued
Grant contracts with customers	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants, subsidies or contributions for the construction of non-financial assets	Construction or acquisition of recognisable non-financial assets to be controlled by the local government		Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants with no contract commitments	General appropriations and contributions with no reciprocal commitment	No obligations	Not applicable	Not applicable	Cash received	On receipt of funds	Not applicable	When assets are controlled
Licences/ Registrations/ Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming	Single point in time	Full payment prior to issue	None	Set by State legislation or limited by legislation to the cost of provision	Based on timing of issue of the associated rights	No refunds	On payment and issue of the licence, registration or approval

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category Other inspections	Nature of goods and services Regulatory Food, Health and Safety	When obligations satisfied Single point in time	Payment terms Full payment prior to inspection	Returns / Refunds / Warranties None	Determination of transaction price Set by State legislation or limited by legislation to the cost of provision	Allocating transaction price Applied fully on timing of inspection	Measuring obligations for returns Not applicable	Revenue recognition Revenue recognised after inspection event occurs
Waste management collections	Kerbside collection service	Over time	Payment on an annual basis in advance	None	Adopted by council annually	Apportioned equally across the collection period	Not applicable	Output method based on regular weekly and fortnightly period as proportionate to collection service
Waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	Adopted by council annually	Based on timing of entry to facility	Not applicable	On entry to facility
Property hire and entry	Use of halls and facilities	Single point in time	In full in advance	Refund if event cancelled within 7 days	Adopted by council annually	Based on timing of entry to facility	Returns limited to repayment of transaction price	On entry or at conclusion of hire
Fees and charges for other goods and services	Cemetery services, library fees, reinstatements and private works	Single point in time	Payment in full in advance	None	Adopted by council annually	Applied fully based on timing of provision	Not applicable	Output method based on provision of service or completion of works

2. RATE REVENUE

The following are the proposed Differential General Rates and Minimum Payments for the Shire of Upper Gascoyne for the 21/22 financial year.

(a) General Rates

Fourth Instalment	11 Apr 2022	3.00	3.00%	7.0%

2. RATE REVENUE (Continued)

(c) Objectives and Reasons for Differential Rating

In accordance with Section 6.36 of the Local Government Act 1995, the Shire of Upper Gascoyne is required to publish its Objects and Reasons for implementing Differential Rates.

The objective of Council's rates is to collect revenue on an equitable basis in order that services to ratepayers can be provided throughout the Shire. The rates are raised to achieve a balanced budget. Property valuations provided by the Valuer General are used as the basis for the calculation of rates each year. Section 6.33 of the Local Government Act 1995 provides the ability to differentially rate properties based on zoning and/or land use as determined by the Shire of Upper Gascoyne. The application of differential rating maintains equity in the rating of properties across the Shire, enabling the Council to provide facilities, infrastructure and services to the entire community and visitors.

Council has considered the Key Values contained within the Rating Policy Differential Rates (s.6.33) March 2016 released by the Department of Local Government, Sport and Cultural Industries, being:

(a) Objectivity

- (b) Fairness and Equity
- (c) Consistency
- (d) Transparency and Administrative Efficiency

Council has reviewed its expenditure and considered efficiency measures as part of its budget deliberations. In particular the following actions have been undertaken:

- (1) Continuation of a 10/4 with an 11 hour per day work roster for the Road crews to reduce mobilisation costs.
- (2) Provide onsite mobile accommodation for the outside crew, reducing lost productive time associated with travelling.
- (3) Strategically placed fuel storage depots throughout the Shire so the outside crew do not have to wait for fuel supplies.

(4) Have established a further 32 bores and additional borrow pits to reduce the cartage distance to works and hence improve productivity.

(5) Continuation of camping out on jobs for Road crews when more than 50km from town to reduce time spent traveling to jobs and increase the time spent working on the roads.

- (6) A continued focus by officers in leveraging council resources to attract grant funding.
- (7) Multi skilling of all employees.
- (8) Continued training of employees to improve their knowledge and productivity.
- (9) Purchase modern equipment that is designed to do the job, reducing down time and reduce maintenance costs.

(d) Differential General Rates

The Local Government Act 1995 determines that properties of a Non-Rural purpose be rated using the Gross Rental Valuation (GRV) as the basis for the calculation of annual rates. The Valuer General determines the GRV for all properties within the Shire of Upper Gascoyne every three to five years and assigns a GRV. The current valuation is effective from 1 July 2015 with the planned update at 1 July 2020 being postponed due to Covid-19. Interim valuations are provided monthly to Council by the Valuer General for properties where changes have occurred (i.e. subdivisions or strata title of property, amalgamations, building constructions, demolition, additions and/or property rezoning etc). In such instances Council recalculates the rates for the affected properties and issues interim rates notices.

GRV - General

Consists of properties predominately located within the Gascoyne Junction townsite boundaries with a predominant residential use and is valued by the Valuer General on a GRV basis. This category is considered by Council to be the base rate by which all other GRV rated properties are assessed. The properties were last assessed on the Valuer General on 1 July 2015. The rate reflects an adequate contribution to the rate burden on the Shire to deliver services, carry out maintenance of public facilities and infrastructure and to meet the objectives as set out in the Strategic Community Plan and other statutory requirements.

GRV - General - Minimum Rates

The setting of minimum rates within rating categories is an important method of ensuring that all properties contribute an equitable rate amount. A minimum rate of \$206 has been set for the GRV-General category. The minimum rate reflects an adequate contribution to the rate burden on the Shire to deliver services, carry out maintenance of public facilities and infrastructure and to meet the objectives as set out in the Strategic Community Plan and other statutory requirements.

The minimum rate for the GRV-General category is set to ensure that less than 50% of the properties in this category are on the minimum rate to ensure compliance with Section 6.35 of the Local Government Act 1995.

2. RATE REVENUE (Continued)

(e) Unimproved Value (UV)

Properties that are predominantly of a rural purpose are assigned an Unimproved Value that is supplied and updated by the Valuer General on an annual basis from 1 July of the current year. The rate in the dollar set for the UV-Rural category forms the basis for calculating all other UV differential rates

UV - Rural

Consists of properties that are exclusively for pastoral/rural use and is considered to be the base rate by which all other UV rated properties are assessed.

This category has been rated to reflect an adequate contribution on the maintenance and renewal of the Shires extensive 1900km road network, and to provide other services such as Biosecurity which encompasses Wild Dog control with two dedicated Licenced Pest Management Technicians. These properties have access to all other services and facilities provided by Council.

UV - Rural - Minimum Rates

The setting of minimum rates within rating categories is an important method of ensuring that all properties contribute an equitable rate amount. A minimum rate of \$412 has been set for the UV-Rural category.

The proposed minimum payment reflects an adequate contribution on the maintenance and renewal of the Shires extensive 1900km road network, and to provide other services such as Biosecurity, inclusive of Wild Dog Control with two dedicated Licenced Pest Management Technicians These properties have access to all other services and facilities provided by Council.

The minimum rate for the UV-Rural category is set to ensure that less than 50% of the properties in this category are on the minimum rate to ensure compliance with Section 6.35 of the *Local Government Act 1995*.

UV - Mining

This category covers all Mining Leases, Exploration Licences, Prospecting Licences, Retention Licences, General Purpose Leases, Special Prospecting Leases for Gold and Miscellaneous Licences as defined under the Mining Act 1978.

Consists of properties that are used for mining, exploration or prospecting purposes. The Unimproved Value is supplied and updated by the Valuer General on both an annual basis from 1 July and a monthly basis thereafter for new tenement grants, deaths and other changes.

The reasons for this category is to reflect the impact on utilisation of rural infrastructure (comparative to Rural) by heavy transport and associated higher traffic volumes and heavy equipment on the shires extensive 1900km road network. The larger scale equipment, frequency of movement, size and operations of mining result in the shires road network requiring additional on-going maintenance and renewal to service these users. Further, these properties have access to all other services and facilities provided by Council.

UV - Mining - Minimum Rates

The setting of minimum rates within rating categories is an important method of ensuring that all properties contribute an equitable rate amount. A minimum rate of \$450 has been set for the UV-Mining category.

The reasons for this category is to reflect the impact on utilisation of rural infrastructure (comparative to Rural) by heavy transport and associated higher traffic volumes and heavy equipment on the shires extensive 1900km road network. The larger scale equipment and operations of mining result in the shires road network requiring additional on-going maintenance and renewal to service these users. Further, these properties have access to all other services and facilities provided by Council.

The minimum rate for the UV-Mining category is set to ensure that less than 50% of the properties in this category are on the minimum rate to ensure compliance with Section 6.35 of the Local Government Act 1995.

(f) Rate Payment Discounts, Waivers and Concessions

No Discounts, Waivers or Concessions in relation to Rates are proposed for 2021/22.

3. SPECIFIED AREA RATE

No Specified Area Rates will be levied in the 2021/22 financial year

4. SERVICE CHARGES

No Service Charges will be imposed in the 2021/22 financial year

5. OPERATING REVENUE

(b) Unspent Borrowings

The Shire had no unspent borrowing funds as at 30th June 2021. It is not expected to have unspent borrowing funds as at 30th June 2022.

(c) Overdraft Facility

The Shire holds an overdraft facility with the Commonwealth Bank for \$3,500,000. The current interest rate on the facility is 6.53% per annum.

The Shire holds a short term lending facility with the Western Australian Treasury Corporation for \$3,000,000. Interest is charged at short term interest rates as and when funds are drawn down. To date, the Shire has not drawn down on this facility.
